Make it personal. Your lifestyle is personal. So is your choice of transportation. By selecting a Club Car Villager 2 or 2+2 LSV, you're making a personal statement. You're also making a personal contribution to the environment without sacrificing style, convenience or sophistication. The zero-emissions Villager LSV (low-speed vehicle) is sporty, fun to drive and doesn't require any fuel. It's powered exclusively by electricity and is legal to drive on roads with speed ratings up to 35 mph (55 kph).

strong, rustproof
aluminum frame

Green. Charging at home means never going to a gas station again. Eliminate vehicle emissions and reduce your carbon footprint with the instant torque and acceleration of the electric power train. The Villager 2 LSV is significantly less expensive to operate compared to a small gas or diesel vehicle.

Powerful. Own the road and never change your oil again. Our powerful 48-volt power train moves you, your passengers and your cargo across nearly any terrain—hilly, sandy or flat—with up to 14 hp (10.3 kw peak) motor.

Strong. Lightweight and corrosion resistant. We're the only major manufacturer in the industry that builds vehicles on aircraft-alloy aluminum frames. Our exclusive rustproof frames are up to 3 times stronger than competitors' steel frames and support up to 571 lb (259 kg) of total vehicle capacity. Club Car's chassis withstands salt, chemicals and the harshest environmental elements.

Safe. Club Car takes your safety personally. Headlights, taillights and turn signals, integrated 3-point safety belts (front), hip restraints and rear 2-point seat belts, safety glass and mirrors help keep you safe. Club Car LSVs include a zero-speed detect feature that controls the vehicle speed should the vehicle inadvertently roll away. Its reduced-speed reverse also helps ensure safety for you and your passengers.

Endurance. Extend the range of your active lifestyle. Travel up to 30 miles (48 km) on a single, full charge with our 48-volt system. Unlike other 48-volt power trains, ours can go the distance.

Intelligent. Smart performance. The onboard controller manages vehicle performance and speed. It knows when the accelerator is released and applies regenerative motor braking, which enhances safety, reduces brake wear and extends battery life. The advanced onboard diagnostics make troubleshooting and maintenance fast, easy and accurate.

Comfortable & Convenient. We design easy maintenance into our vehicles. Practical features such as speed caps or an optional single-point watering system make adding water to the batteries easy. Automotive and marine materials throughout the vehicle make cleaning easy and help the vehicle retain its value. The dashboard and expanded storage make it easy to store and find personal items. Contoured seats provide a comfortable ride.

Durable. The dent-resistant body and automotive finish help conceal scuffs for long-lasting beauty. Commercial-grade suspension and power train components give years of trouble-free use.

Rear License Plate Holder:
Illuminates license plate and vehicle rear when headlights and taillights are on.

Optional Bagwell Insert & Optional Gear Bag: Store a tool box, secure a few bags of supplies, or throw your sports gear in the back.

Do the environment a favor.

Choose the street-legal Villager 2 LSV. It's environmentally friendly, a strong performer and there whenever you need it. The Villager 2 LSV quickly becomes your practical alternative for everyday excursions. It will be your first choice for short trips, such as driving to the golf course, into town for dinner or driving to work. With the optional cargo bed, it's perfect for picking up groceries, hauling your gym gear or working around your property.

Its low profile and powerful drivetrain make it nimble and fun to drive, while its automotive-style appointments make passengers feel comfortable and safe. Plus, it's easy to recharge. Plug into a common household electricity outlet overnight and you're ready for your next trip.

30

Four Cup Holders: Plenty of beverage space for all occupants.

Windshield Wiper: The weather can be unpredictable, but every Club Car LSV comes prepared.

Optional Windshield Washer: Perfect for dusty environments.

Optional Custom Dash: Wood accents with dual glove boxes.

Enjoy the view from any one of four seats. The Villager 2+2 LSV

delivers an eco-friendly, fun experience for four, and there's no such thing as a bad

seat. It's great alternative transportation for shopping or family outings. And you

don't need to stop at your local gas station for expensive fuel, unless you want a

bottle of water or a snack.

Vehicle Features

Villager 2 LSV

Drive Motor	Shunt-wound, Direct drive
Horsepower	5 hp (3.68 kw) continuous; 14 hp (10.3 kw) peak
Drive Unit	Double reduction helical gear with 10.3:1 direct drive axle
Electrical System	48 volts DC, reduced speed reverse
Batteries	Six 8-volt, deep cycle
Charger	48-volt, 17 amp; automatic, computer-controlled variable
Controller	350 amp solid state (DC)
Steering	Self-adjusting, double reduction helical rack & pinion
Front Suspension	Mono-leaf spring with dual hydraulic shocks
Rear Suspension	Leaf spring with dual hydraulic shocks
Brakes	Self-adjusting, 4-wheel mechanical drum brakes
Park Brake	Foot-operated
Frame/Chassis	Corrosion-resistant, welded aircraft aluminum I-Beam
Front Body	ABS with automotive paint finish
Rear Body	Impact-resistant ArmorFlex®
Light Package	Headlights (high and low beams), taillights, brake lights, turn signals, & horn
Tires	18.5 x 8.50-8
Optional Tires (with Alloy Rims)	205/50 R10 Radial
Instrumentation	Battery warning light
Overall Vehicle Dimensions	92 x 47 x 69 in (232 x 120 x 174 cm)
Vehicle w/ Cargo Bed Dimensions	101 x 47 x 69 in (257 x 120 x 174 cm)
Cargo Bed Dimensions	31 x 38 x 9 in (80 x 96 x 24 cm)
Total Vehicle Capacity	550 lb (250 kg)
Wheelbase	66 in (166 cm)
Differential Ground Clearance	4.5 in (11 cm)
Tread Centers (Front / Rear)	34.5 (88 cm) / 38.5 in (98 cm)
Vehicle Weight	Base model: 1069 lb (485 kg); With cargo box: 1097 lb (498 kg)
Seating Capacity	2
Speed	22 – 24 mph (35 – 39 kph)
Outside Clearance Circle	17.5 ft (5.3 m) diameter
Turning Radius	68 in (173 cm)
Intersecting Aisle Radius	77 in (196 cm)
Vehicle Warranty	2-year limited vehicle/ 4-year battery
