Madjax recommends professional installation. If you choose to not have this product installed by a professional, we highly recommend that you exercise caution, care, and patience when installing this product as it involves drilling holes into your cart's body.

NOTE: The mounting brackets are designed to mount to the inside of LED bar or flipped towards the outside. This offers a mounting area of 17.5 inches to 30 inches.

Attach mounting brackets to LED bar using supplied hardware in the order shown.

2

Using the hardware needed for your particular application, attach LED bar with brackets and tighten.

See Harness instructions 02-029 for directions on how to install your LED Harness.
